Microsoft In a Day Courses

- ✓ Get a crash course about a specific, practical topic in only one day
- ✓ Learn through practicing via hands-on lab exercises

Power Platform – App in a Day

Agenda

Introductions; Business Application Platform Overview

Module 1: Power Apps Canvas Apps

Lab 1: Power Apps Canvas Apps

Lab 1: Power Apps Canvas Apps

Module 2: Microsoft Dataverse

Lab 2: Microsoft Dataverse

Module 3: Power Apps Model-driven Apps

Lab 3: Power Apps Model-driven Apps

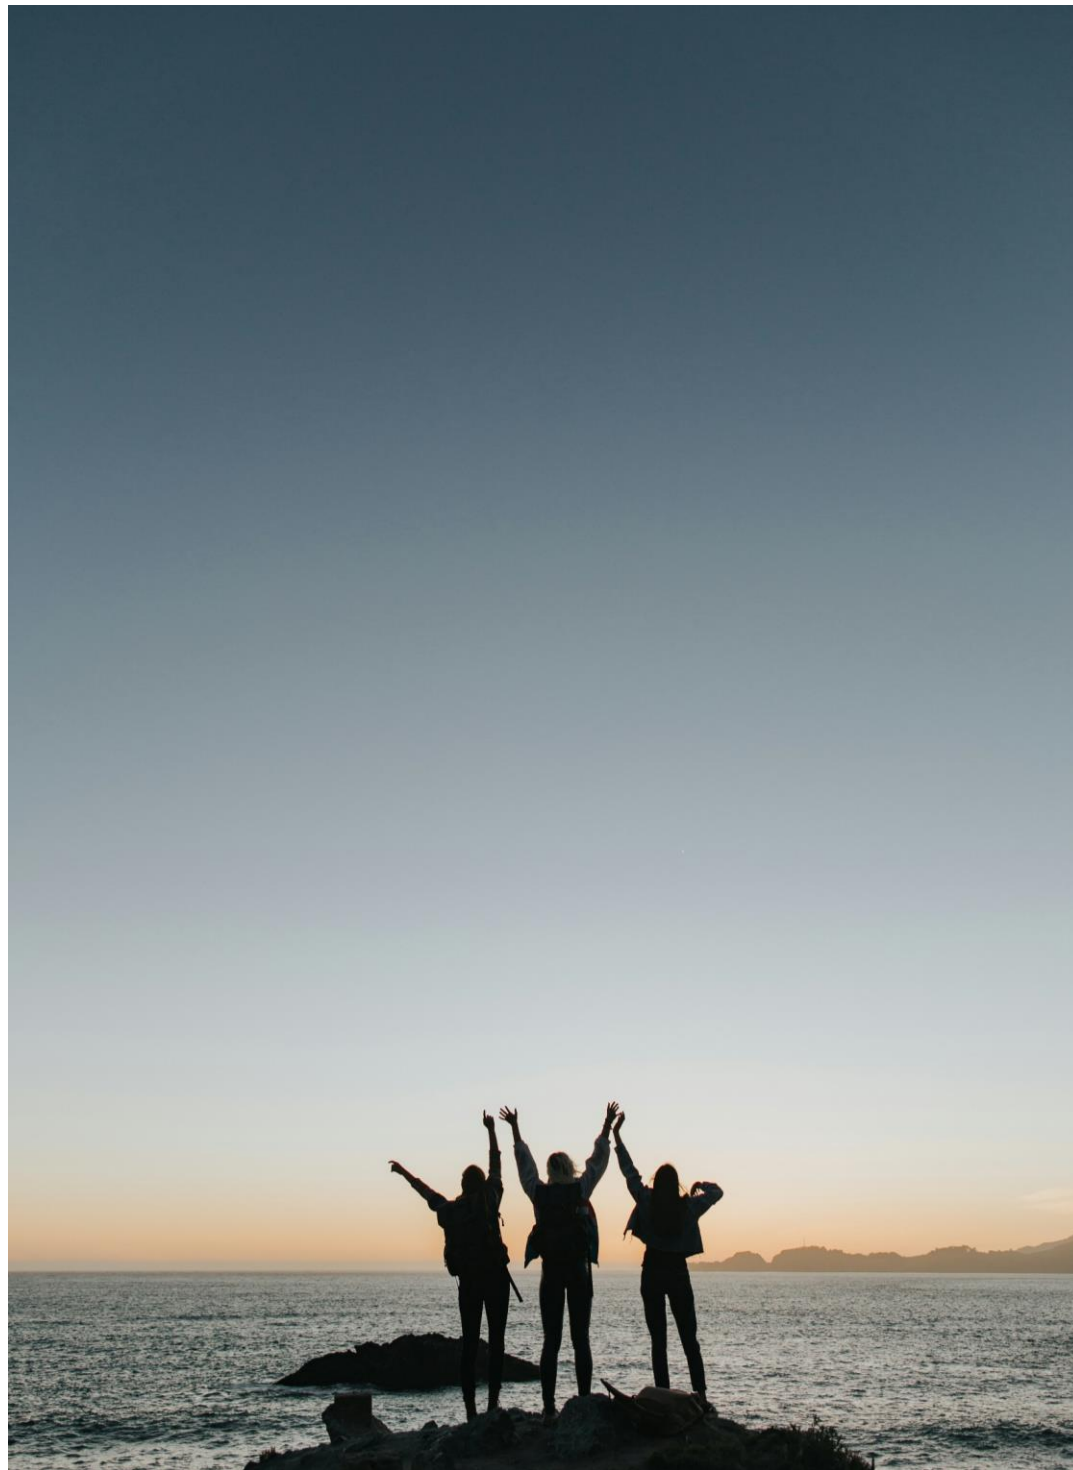

Module 4: Power Automate

Lab 4: Power Automate

Roadmap and Call to Action , Q&A

Interested in App in a Day for your team?

Email training@365talentportal.com

Modern Excel and PowerBI in a Day

Agenda

Introductions

Analytics in Excel

Lab 01A: Excel + Power Query

Mapping Learning to Power BI – Part 1

Lab 02A: Power BI Desktop + Import & Edit Power Query

Mapping Learning to Power BI – Part 2

Lab 02B: Power BI Desktop + Creating Visuals

Power BI + Excel better together

Lab 03A

Lab 03B

Power BI + Office better together

Q&A

RPA in a Day

Agenda

Introduction to RPA (Robotic Process Automation), Power Automate and desktop flows

Create your first Power Automate desktop flow

Lab 2: Create your first Power Automate desktop flow & Review

Use inputs and outputs variables in desktop flows

Lab 3: Use Input and Output Parameters & Review

Use desktop flow connector in Power Automate through connection

Lab 4: Integrate cloud flows & Review

Use API Connectors in cloud flow to connect to Outlook inbox

Lab 5: Use Outlook email to trigger desktop flows and pass inputs

Integrate with AI Builder

Lab 6: Use AI model to process invoice forms

Integrate with approval in Microsoft Teams

Lab 7: Use Microsoft Teams to integrate approvals

Use Power Automate for website and Excel

Lab 8: Extend a Power Automate desktop flow to write notes into Excel & Review

Unattended desktop flows

Lab 9: Test RPA in Unattended mode Error handling

Lab 10: Error handling

Monitor desktop flow runs and manage queues

Lab 11: Monitor desktop flow runs

Identify automation opportunities using Process advisor

Lab 12.1: Process mining

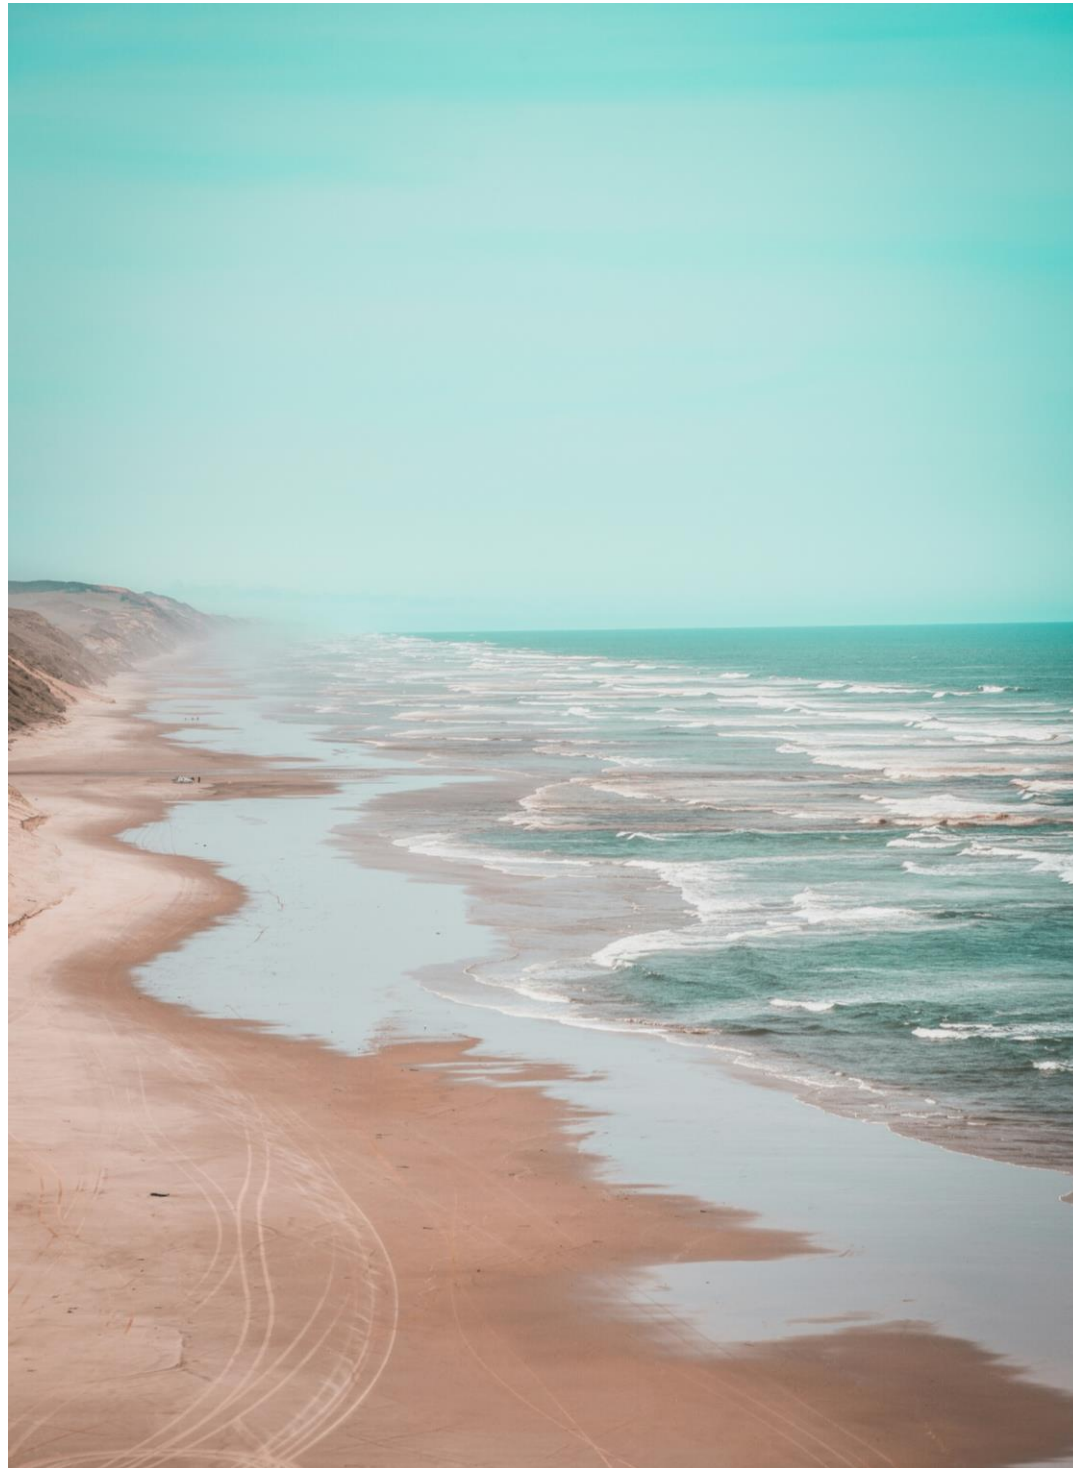

Summary - Power Automate RPA Licensing & Roadmap Q&A, Closing

Interested in RPA in a Day for your team?

Microsoft Bespoke Offering

- ✓ Receive a tailored training program that fully matches your Microsoft skilling needs
- ✓ Learn niche skills that aren't covered by the official Microsoft offering

User Adoption Training

For End Users: Maximise user adoption of Microsoft solutions through custom-built training programs. Build internal capabilities to administer and upgrade your Microsoft solution.

For Microsoft Partners: Delegate your user training to a trusted partner and keep your consultants focused on driving revenue through implementations.

User Adoption Training Offering

You can request any type of Microsoft User training programs from us. Here are a few examples of what we do:

- **End-to-end user training management:** from program design to training delivery, we optimize your user adoption and empower you to manage your Microsoft solution independently.
- **Core user training:** ensure all your employees understand your new solution and know how to work with it. This can be done via live instructor-training, videos, process recordings...
- **Superuser training:** build the capability to administer, support and improve your Microsoft solution in-house.
- **Train the Trainer:** train any future hires independently by building a team of knowledgeable internal trainers who will teach best practices and keep your training content up to date.

Interested in End-User Training?

Email training@365talentportal.com

BizApps Practice Programs

Powerfully start or expand your Microsoft Partner Practice with this business growth program designed for your leadership, sales and marketing teams. Create and optimise your strategic vision, design your value proposition and irresistible offering, optimise your marketing messaging and accelerate your sales.

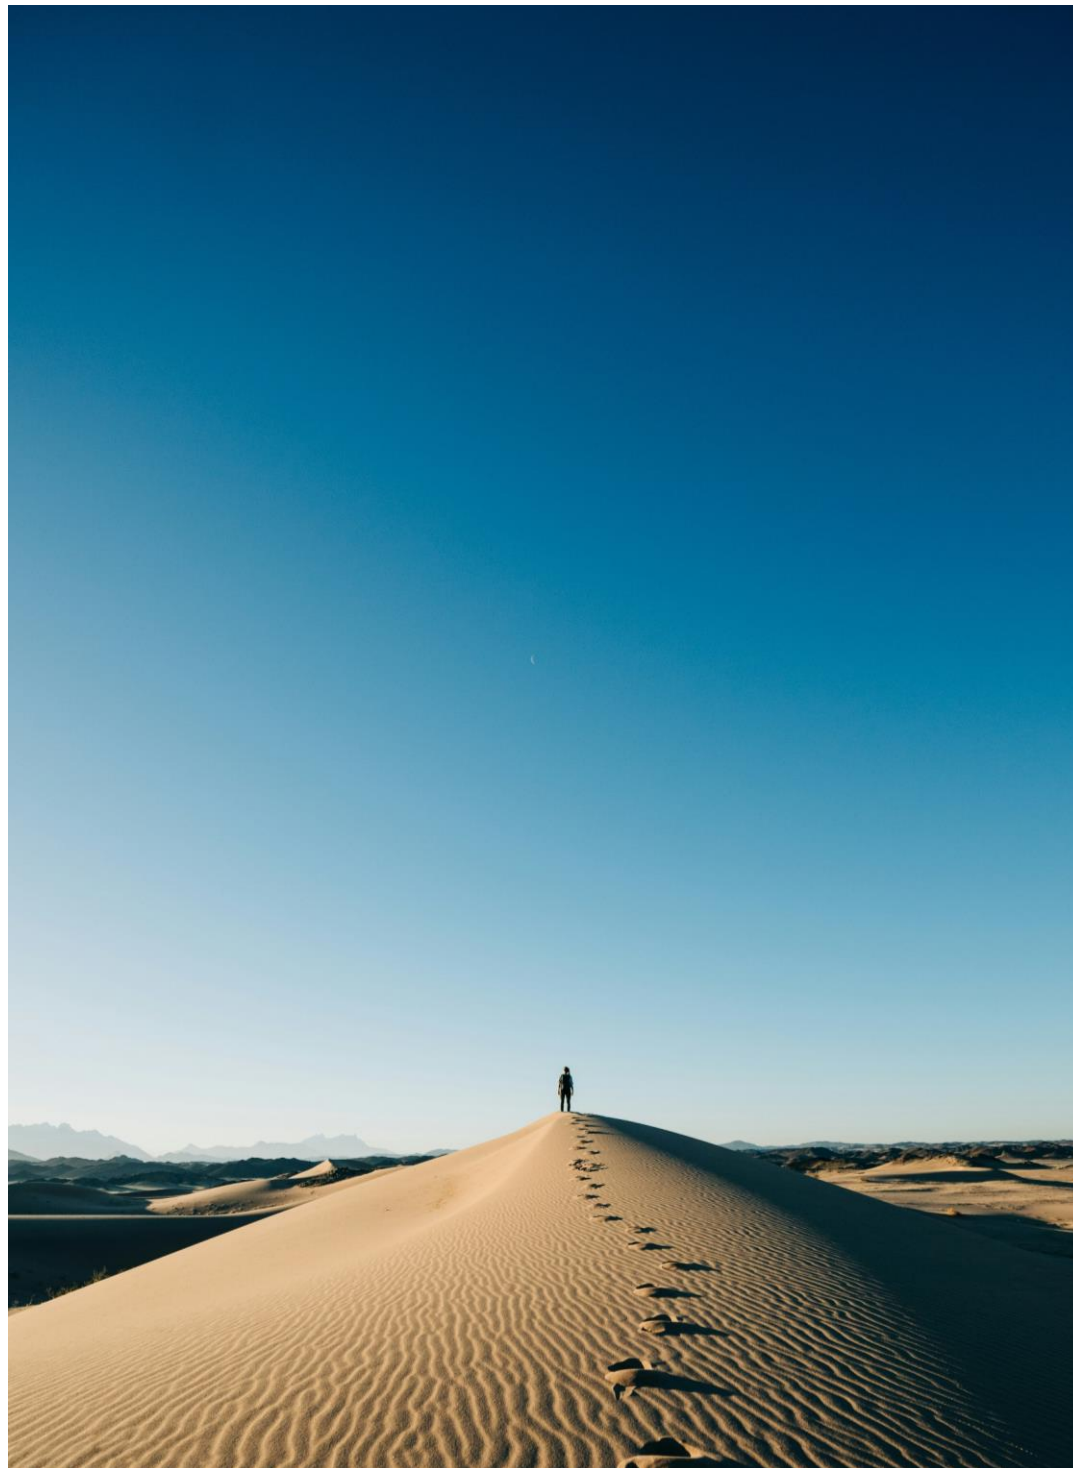

How it Works

Choose between two levels of Microsoft Practice Programs depending on where you are on your journey.

- **BizApps Practice Builder:** for companies who are about to start or just getting started with their journey in the BizApps space. Ensure that your first steps set you up for success.
- **BizApps Practice Accelerator:** for Microsoft Partners who are already in the BizApps space and looking to powerfully accelerate their growth.

Interested in accelerating your practice?

Email training@365talentportal.com

Trainer Hire

Hire a top Microsoft Certified Trainer by the hour or by the day. We work on this model with Microsoft Partners, Microsoft Learning Partners, Microsoft End-Users and Microsoft themselves.

With this model, we provide the trainer only – you manage the curriculum design (where appropriate), the project and the delivery. If you are looking for a more guided approach, check our other bespoke offering pages.

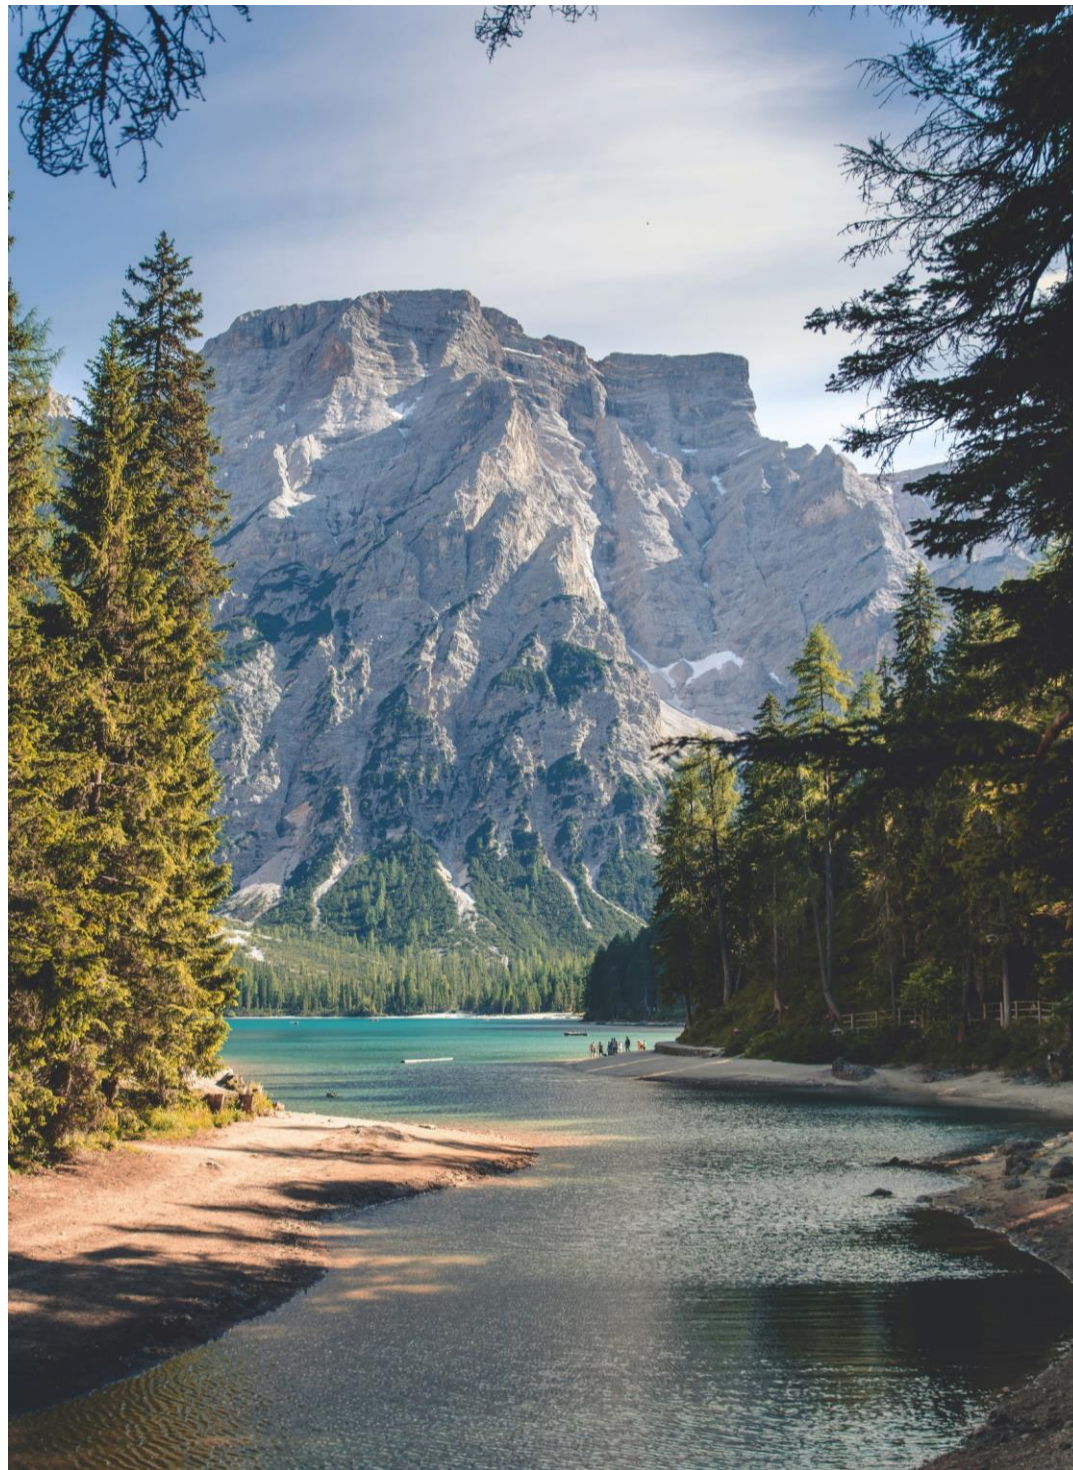

Trainer Hire Offering

We provide Microsoft trainers for any needs. Here are a few examples of what you can ask for:

- **Delivery of existing content:** this can be your own Microsoft training content, or to deliver any of the Microsoft official courses. We provide a top trainer, you manage everything else.
- **Creation of new content:** including Microsoft training content, lab exercises, certification exam content, quizzes, challenges... If you have a curriculum outline you want to bring to life, we provide the expert to create it for you.
- **Consultative Learning:** book a few hours of a trainer's time and ask them to show you how to perform specific, simple tasks with your Microsoft solution. Ideal if you have a few questions to ask which don't require a full training course.

Interested in hiring a trainer?

Email training@365talentportal.com

Net New Talent Programs

Become an industry leader and trend setter by bringing net new talent into the Microsoft space. Let us guide you through the process of building or improving your internal graduate and career changer programs.

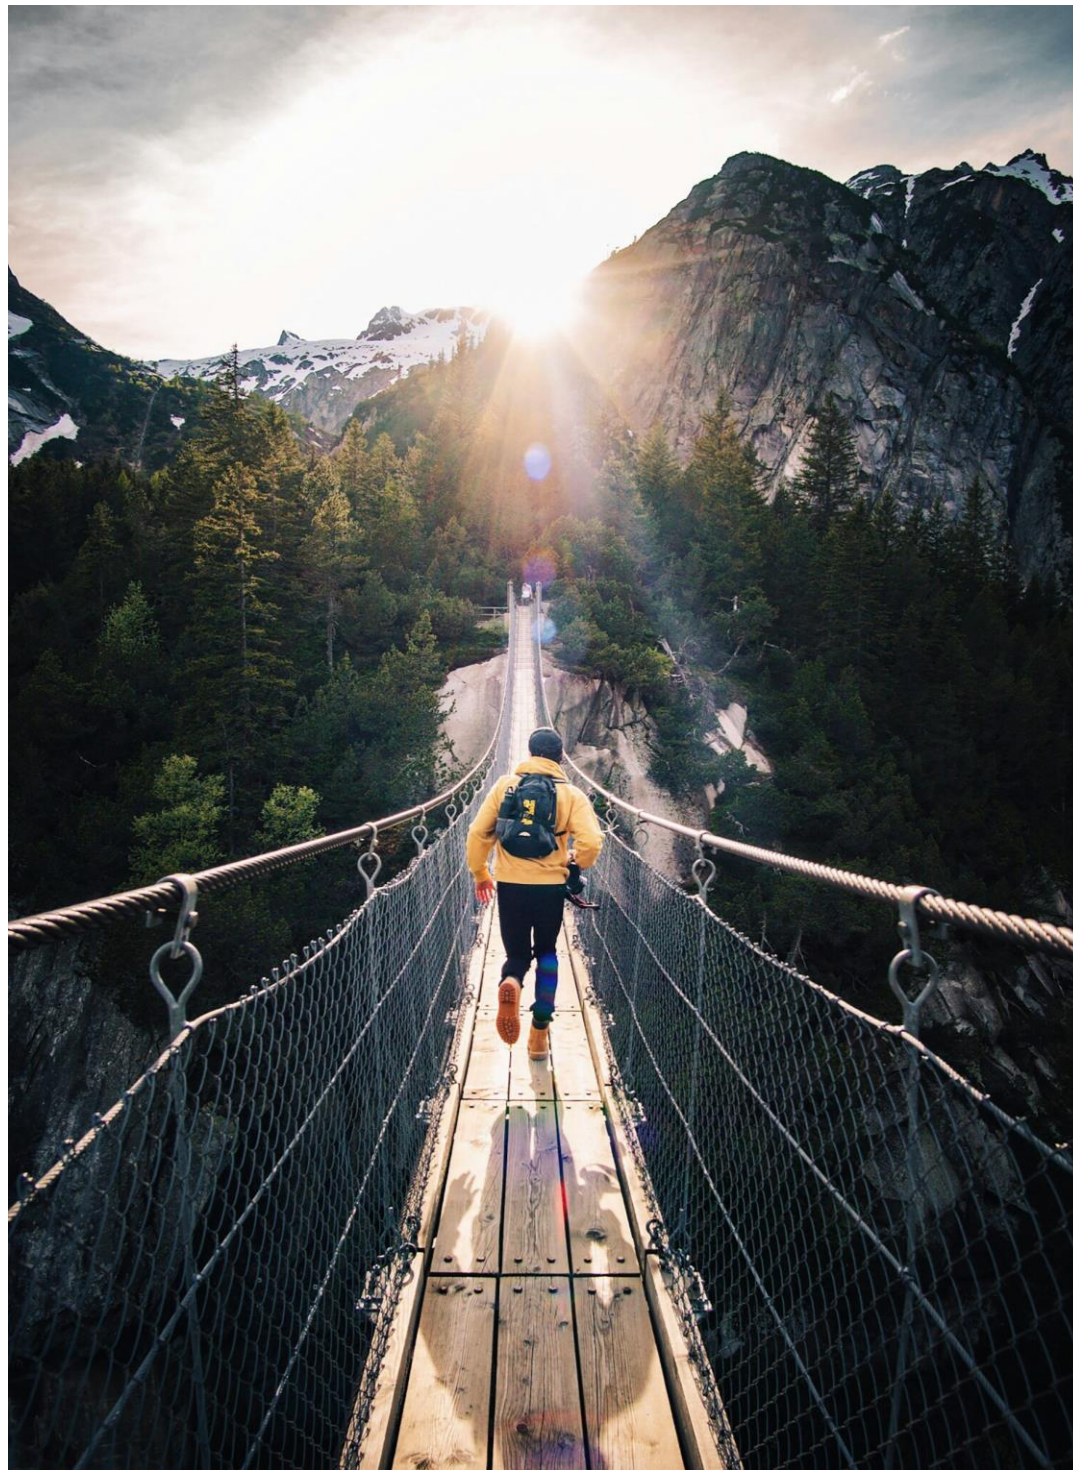

Net New Talent Offering

We can support you with any or all parts of creating and improving your net new talent program:

- **Net New Talent Program Design:** to define your objectives and find the best strategy based on your company and needs.
- **Talent Sourcing:** all you need to hire the best people, from adapting your employer brand and hiring strategy for net new talent to actually finding the right people for you.
- **Upskilling and Certifications:** we build and deliver your Microsoft upskilling program for you, based on your priorities (speed, affordability, flexibility...).
- **Mentoring:** build or improve your internal mentoring program to maximise the success of your new hires. We can also train your mentors so they are truly committed to their mission.
- **Employee Happiness:** ensure you retain this amazing new talent (and your other employees) by nurturing them through an employee happiness program.

Interested in net new talent services?

View our [Net New Talent Creator page](#)
Or email training@365talentportal.com

Hands-On Workshops

Give your team practical experience with products through bespoke hands-on workshops

- Mock implementations
- Targeted specific tasks (building workflows, product admin etc.)

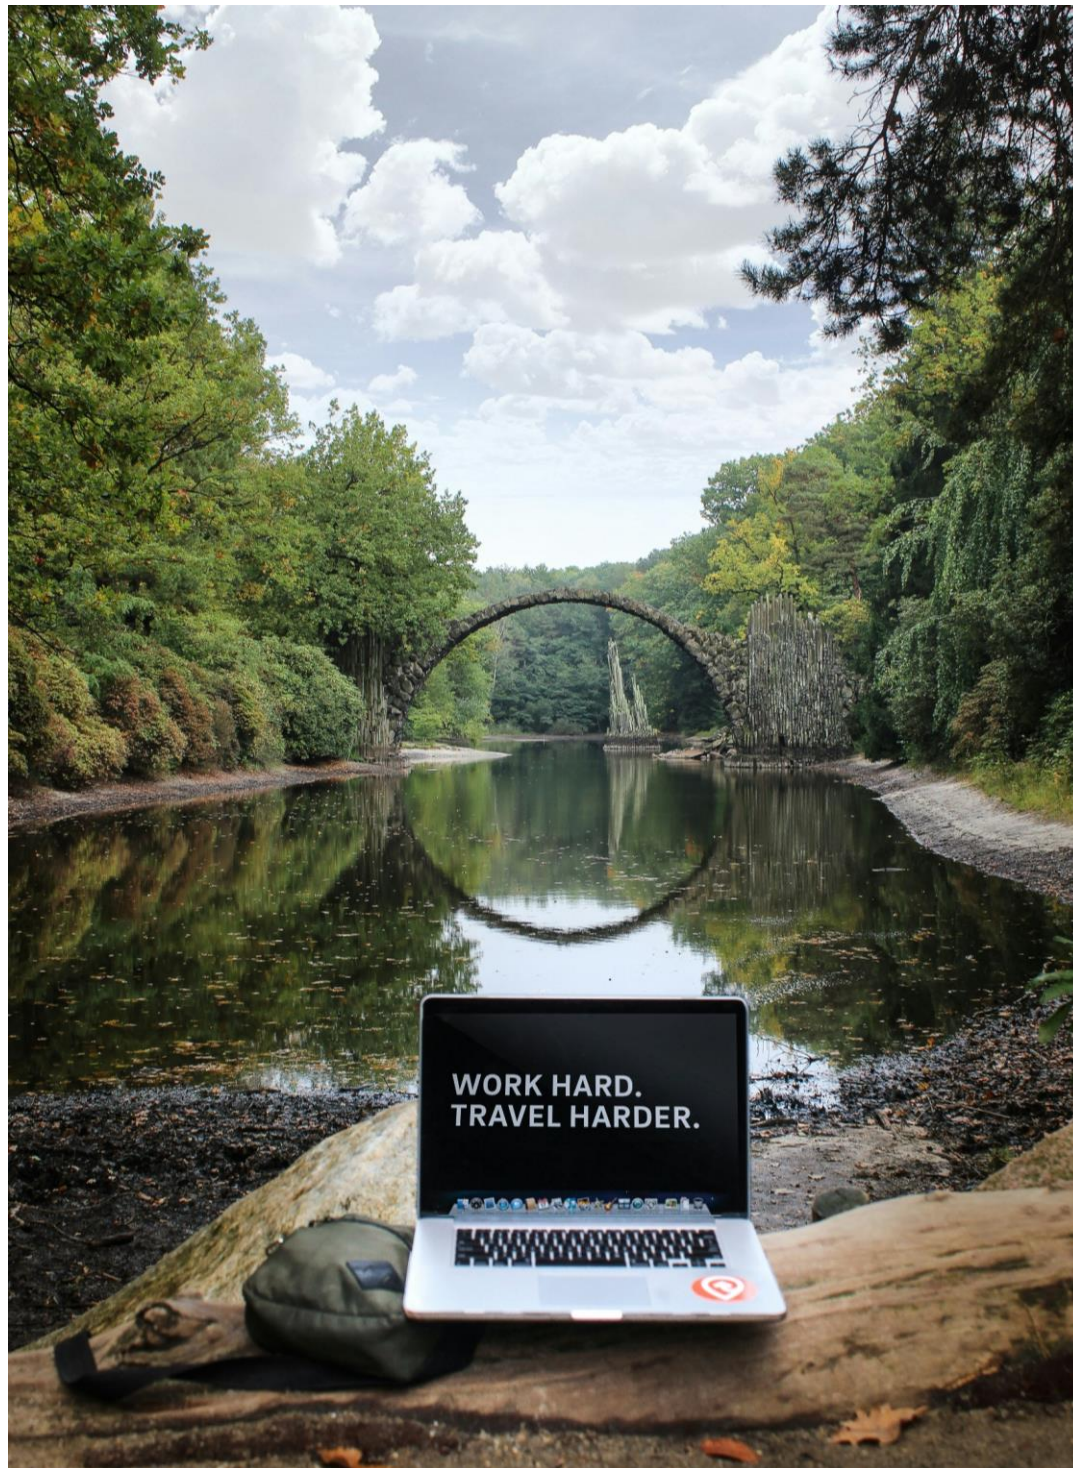

Hands-On Workshops Offering

While we can design anything that comes to your mind, here are a few examples of hands-on workshops you can request from us:

- **Challenge-based scenarios:** we'll teach your team how to perform a specific task within a Microsoft product, and then get them to apply the knowledge through a hands-on scenario.
- **Mock implementations:** we provide your team with a business scenario as though it were a client request, and get them to build, design and customise a Microsoft product in order to achieve the client's objectives.

Interested in organising workshops?

Email training@365talentportal.com

Build Your Own Program

The above list is just to give you ideas – we have the expertise to create any training program for increased success in Microsoft technologies.

How it Works

Tell us your requirements, desired learning outcomes and business objectives. We support you to build a learning program that will match your needs and we create and/or deliver it for you. Here are a few examples:

- **Advanced or specialised topics:** looking for a Microsoft course that doesn't exist on an advanced or niche skill? We can build it for you.
- **Non-technical topics:** Microsoft sales or presales, project management, soft skills and more.
- **Process optimisation and training:** we combine consulting and training and support you to build optimal processes in your Microsoft solutions, then we train your team on those processes and teach them best practices.

Interested in designing your program?
