

Learning Path

Microsoft Dynamics 365 Finance and Operations Apps Developer

To become a fully certified Microsoft Dynamics 365 Finance and Operations Apps Developer, a combination of two certification exams are required: **Microsoft Dynamics 365: Core Finance and Operations (Exam MB-300)** and **Microsoft Dynamics 365 Finance and Operations Apps Developer (Exam MB-500)**.

If you are new to Microsoft Dynamics 365, we recommend you follow these steps:

- Go through the online self-study material listed in this document
- Register for instructor-led training to prepare for your certification exam

1. Fundamentals

Get started with Microsoft Dynamics 365

The Fundamentals learning path is recommended if you are new to Dynamics 365 and is worth completing even if you don't want to take the optional exam.

[Microsoft Dynamics 365 Fundamentals](#)

– **On Microsoft Learn** – *No registration required*

A starter learning path, with an optional exam, that will help you gain a deep understanding of the Dynamics 365 business applications and its target customers. You will also learn about cloud concepts, Power Platform and how to get started with Dynamics 365 apps.

Prepare for your exam (optional)

Check your knowledge and make sure you are prepared with all the training resources and knowledge needed for the Dynamics Fundamentals exam:
